

Building a Better World

One Child at a Time

**GEORGIA CENTER
FOR CHILD ADVOCACY**

2022 Annual Report

Dear Friends,

2022 marked the **Georgia Center for Child Advocacy's** 35th Anniversary. Our CAC – once a novel idea - has shaped a path for thousands of child victims to recover from abuse and trauma. This path was not made with a single footstep because recovery is not met by a single moment. Nearly 20,000 tiny footprints spanning across thirty-five years leave behind the power of the journey – teaching us healing hurts right now, but the life that awaits is worth it.

Along this journey, we have fumbled and triumphed, but we have never doubted that our model is rooted in the best interest of children. By supporting CACs like us, you too have fought for safe spaces, increased protections, and children's rights.

I am proud to be among our network of protectors, advocates, and friends like you who prioritize the future for all youth across Georgia. Beyond recovery lies the other side of ordinary life – where children are stronger and more resilient than before.

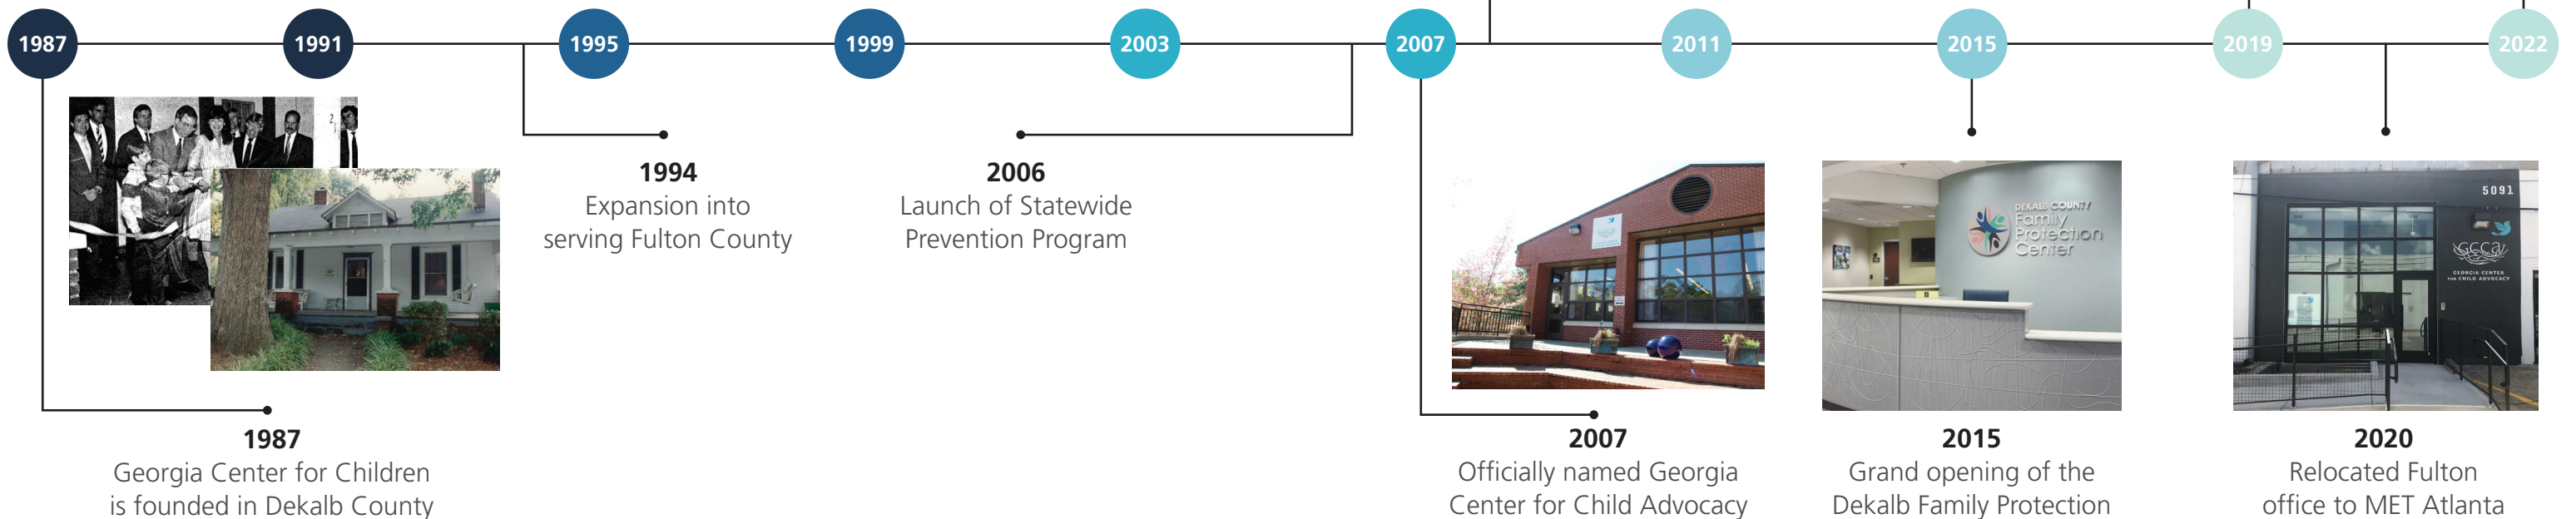

Your investment supports all the paths along the journey to recovery. The first time a victim no longer feels alone. An entire hour a child spends without thinking about what happened. The week they gained their appetite back. All these moments unlock mental pathways toward a future where a child now has room to be playful, spirited and whole.

Thank you for helping make this milestone possible. I hope you enjoy reading our **2022 Annual Report** to learn more about how your investment continues to forge pathways for hundreds of families every year.

Sheila Ryan
Chief Executive Officer

Our mission is to champion the needs of sexually and severely physically abused children through prevention, intervention, therapy and collaboration.

**In Dedication of
Linda McMurray-Miller**
whose passion, dedication, and vibrant spirit gave children a voice and provided hope for a better future.

Intervention

We conduct **forensic interviews** for children primarily living in DeKalb and Fulton counties. Following an allegation, the forensic interview is a developmentally and culturally appropriate conversation that gives a child the opportunity to share their account with a trained professional in a confidential, safe and supportive environment. This model works to reduce the trauma a child experiences both from the incident itself and the response they receive upon disclosure. We serve as critical conveners of state agencies and partners during the case management process through bi-weekly **multidisciplinary team meetings**. Our interviewers are also summoned to provide **expert testimony** in court proceedings.

- 71% of primary caregivers were the biological mother
- 68% of our forensic interviews involved allegations of child sexual abuse or assault
- 8% increase in physical abuse and other violence related victimizations – signaling signs of growing unrest in our community
- Returned focus on professional development – participating in 39 trainings covering a range of topics like trafficking technology and exploitation, children with autism, and sports in social work

“The work of the GCCA is critical to our mission of ensuring justice for our child victims. They provide extremely competent and professional services and are always willing to go above and beyond to ensure the best results for each child. We are thankful for their partnership and always know that their interviews and trial testimony will be best in class.”

Edward Chase
Director of Special Victims Unit

Prevention & Education

Our statewide **Prevention Program** aims to prevent child sexual abuse, reduce childhood trauma, and promote healthy outcomes in Georgia through a collaborative effort that equips adults with awareness, education, and resources to take action. This initiative raises awareness by conducting trainings and engaging communities at the local level. Since 2006, this program has transitioned from a single-focused program to now a comprehensive, multi-dimensional program that performs a variety of services – recognizing how layering our efforts results in enriched protections for children.

- Trained 132 Atlanta Public Schools staff as trainers of Connections Matter – **the largest Train-the-Trainer workshop conducted so far**
- **Banks County** became the 10th county in the Northeast Georgia region to reach tipping point – recognizing that now 5% of their total adult population has been trained in child sexual abuse prevention
- Developed Spanish versions of the trainings **Human Trafficking: Preventing the Commercial Sexual Exploitation of Children (CSEC)** and **Becoming a More Resilient Parent**

“Atlanta Public Schools seeks to be a fully trauma informed district and build the capacity of school-based staff, teachers, and bus drivers to understand and respond, with empathy, to the impact of student trauma; therefore, it was only logical that we partner with the GCCA to guide us in this path. I have found the GCCA to be responsive to our needs, and thought partners to help us bolster our goals. By the end of this school year, all school staff, teachers, and bus drivers will be better equipped to serve and support our students, and for that, we are grateful.”

Shannon D. Hervey
APS Director of Student Support & Interventions

Therapy

Beyond the crisis response, we are committed to the child's long-term healing and provide them with the tools they need for a healthy, successful future. When therapy is offered on-site at a child advocacy center, the child is more likely to attend the first session, and subsequent sessions for a longer duration. Because our therapy services are free and on-site, we are reaching those most at-risk for suffering negative impacts who would not otherwise be able to afford evidence-based, trauma-informed mental health treatment. Our Ph.D. and Masters' level licensed therapists are trained in modalities that address childhood trauma, physical abuse, sexual abuse and problematic sexual behaviors (PSB).

- **96%** of youth who completed treatment experienced a significant reduction in trauma symptoms – demonstrating meaningful signs of recovery from PTSD
- Piloted project **Mental Health Screening Intervention** – increasing access for mental health services the day of the forensic interview
- Experienced an increased demand for **Leaps & Bounds** statewide, providing consultation across 23 Georgia counties on PSB cases. This program's growing interest demonstrates a shift in the culture that wants to reduce the incarceration of juveniles and keep families together

“The therapist went above and beyond to help my granddaughter. She has come so far and truly trusts the therapist. There aren't words that can express the gratitude I have in my heart.”

Child & Family Advocacy

In January 2022, we introduced **Child & Family Advocacy Services** to meet the growing, complex needs among our families - initially exhibited during the pandemic. Now expanded out from intervention services, this enhanced program is building our capacity to give more at-risk families the specialized care they deserve. By creating a team comprised of a Program Director, a Trafficking Specialist Family Advocate, and two Community Family Advocates, we are able to better **address the intersection of trauma response and meeting families' basic needs**. After starting to receive referrals in May, the team has made remarkable progress during its first year.

2,285 units of services performed

266 families served

167 family advocate meetings held

26% requested services for housing, family planning, grief support, domestic violence resources, and family therapy

- Monthly service provision increased by 254% from May to December
- 41% cases involved the alleged offender sharing the home - resulting in greater stressors surrounding family needs
- Understanding how collaboration is key, the team met with Children's Healthcare of Atlanta, youthSpark, CACGA, the Fulton & DeKalb DA's Offices, Atlanta Legal Aid, and DeKalb Pro Bono
- Focused on staff development and attended trainings including: CACGA Standards of Care Boot Camp, Collaborate Database, Helping Human Trafficking Survivors through Trauma-Informed Care, Child First Training, and CJCC Victims Compensation

Educating The Frontlines of Justice

The Response Training Program enhances local community's response to childhood trauma through trainings, supervision, peer review, and consultation. This supports CACs, District Attorney's Offices, lawyers, DFCS, Law Enforcement, and other frontline professionals working with at-risk children across Georgia.

- **Child First Trainings** – intensive nationally recognized forensic interview training program offered at beginner, intermediate and advanced levels
- Works with the **CACGA CSEC Response Team** to deliver this education Conducting High Risk Forensic Interviews & Conducting CSEC Forensic Interviews
- **Peer Review & Ongoing Supervision** – following an initial forensic interview training yields dramatic improvements on the quality of interviews and court testimony. Leads three separate forensic supervision groups, each meeting once a month for approximately three hours
- **Expert Consultation & Testimony** – assists District Attorney's Offices in GA so that jurors understand FI, process of disclosure, and children's responses to abuse.
- **CSEC Forensic Specialist** – conducts forensic interviews for the Receiving Hope Center for trafficking victims, and delivers CSEC-focused trainings across the state

113 professionals representing 42 distinct districts attended an intensive Child First training

238 participants representing 36 CACs across the state engaged in monthly supervision, skill-building, and peer review groups

300 professionals at annual Prosecuting Attorneys Council Conference attended our presentation "Suggestibility: What It Is and When to Push Back"

"GCCA is an essential partner for the work the Crimes Against Children Unit does at the Fulton County District Attorney's Office. The staff are experts in their field and assist prosecutors by educating juries and leading them through the child's forensic interview. Further, their knowledge and expertise assist our professionals in serving our children in trauma-informed best practices to ensure justice is served."

Lauren McAuley
Deputy District Attorney

Improving Lives of Trafficked Children

More than 90% of children who are commercially sexually exploited have been sexually abused in the past. Unfortunately, 25% of child pornography content is produced by a neighbor or family friend - with 18% produced by the parent or guardian. Nearly 50% of runaway and homeless youth report being physically abused, 38% report being emotionally abused, and 17% report being forced into unwanted sexual activity by a family or household member. These children are the most vulnerable of being commercially sexually exploited. These are the children we treat every day. Youth who experience sex trafficking and other forms of exploitation experience high degrees of trauma and are at a very high risk for a range of adverse outcomes. We provide specialized services and education to combat the trafficking and exploitation of minors, also known as CSEC.

180 trafficked youth and their caregivers served through these special projects

57 events held to promote healthy behaviors and self-empowerment

240 educated in CSEC trauma response

281 units of service delivered through Envision's Bridge to My Future – Advanced 2.0

All 13 DFCS Regions in Georgia received CSEC Awareness through Project Intersect

PROJECT INTERSECT PROVIDES trauma-focused trainings for mental health providers and caregivers of trafficked youth across Georgia. This project educates adults on the impact of trauma on youth development and behaviors, how to respond to the challenges of traumatized youth, and offers a support system to address their shared experiences.

THE ENVISION PROJECT provides individualized care management, employment readiness, educational readiness, educational support, independent living skills, and personal growth programming to support the well-being of trafficking youth.

Fostering with Equity and Inclusion

As a child advocacy center, we naturally build our programs through the equity lens. Equity-focused programming recognizes that all children deserve the same opportunity to recover from trauma, but that some children face greater barriers and require specialized responses so that healing can begin. Equity requires us to listen to and work alongside our families. Learning from families elevates their voices and recognizes how the best solutions often lie with the caregivers and youth themselves. Two staff-driven committees – A-Team & DEI Committee – spearhead these efforts to promote and elevate trauma-informed practices across our organization.

- Updated and finalized GCCA's **Equity, Diversity, Inclusion and Antiracist Policy, Onboarding Process, and Cultural Competency Plan**
- **A-Team** concluded its focus on Secondary Traumatic Stress Domain – resulting in quarterly mental health days, lower co-pays for mental health visits, and Employee Assistance Program (EAP) for staff
- Conducted the **2022 Employee Engagement Survey** – resulting in action plans to improve Company Culture, Employee Satisfaction, Performance Reviews, and Strategic Plan Reporting
- Created monthly **Community Circles** to bring education and awareness to GCCA staff on issues related to oppressed and marginalized group in order to more effectively serve our clients and community
- Focused on installing **intentional artwork and branding features** to create a trauma-informed, inclusive, and welcoming space for our families

“Thank you GCCA for helping us build our capacity to respond to our children and families affected by trauma by creating a healing environment that promotes safety, resiliency, and meaningful social connections!”

Shelly Spizuoco

Fulton County Juvenile Court Director of Behavioral Health

2022 Supporters

Thanks to the generous contributions of our supporters, we are able to provide our specialized services at no cost to the children and families we serve. We also appreciate the numerous agencies that choose to partner with us and entrust us to provide professional services – helping reduce program costs. Because of you, hope and healing for these children and families is possible.

“The GCCA Advocacy makes a real difference in the battle against sexual abuse, physical abuse, and human trafficking in Georgia. GCCA’s staff and services provide children with safe environments, support, and care that help survivors heal and recover. Providing to GCCA ensures that every child in Georgia receives the safe space and support they deserve.”

The Georgia Center for Child Advocacy presents the following trainings:

Stewards of Children

Educates youth-serving adults how to prevent, recognize and react responsibly to child sexual abuse and exploitation. (2.5 hours, \$15 per person)

Connections Matter Georgia

Focuses on effectively educating communities about Adverse Childhood Experiences (ACEs), trauma and resiliency to develop a healthier, stronger community. (4 hours, \$20 per person, group rate available)

Circles of Safety Understanding the Role of Healthy Sexual Development

Highlights child sexual abuse facts, opportunities to practice safety planning strategies and what steps they can take to promote healthy sexual development. (2.5 hours, \$15 per person)

Specialized Training Topics

- Human Trafficking/Sex Trafficking
- How to Talk to Children about Safety from Sexual Abuse
- Child Protection Policy Development
- Mandated Reporter Training
- Georgia's Technical Assistance Resource Guide for Schools
- Becoming a More Resilient Parent
- The Triple P – Positive Parenting Program
